- » No "recharge" or other monthly or yearly system update or license fees or charges
- » No expensive hardware to purchase or software to install, configure or maintain
- » Automatic system updates, spam rules and virus definitions at no additional cost
- » Free technical support and assistance 24 hours a day, 7 days a week
- » Reduced network bandwidth, mail server load, disk storage and IT support costs
- » Improves customer and email user experience, satisfaction and customer retention
- » Provides mailserver redundancy, acting as a backup if your mail server is down
- » Easy to use web interface for administration and quarantine management
- » Web-based logging, reporting, statistics, queue management and more
- » Quick to implement and manage, can be up and running within just a few hours
- » FREE 30-day trial/evaluation system, no setup fees, contracts or minimum terms

### SafePoint Firewall Product Description

- » Eliminate 98% of Spam before it gets to your mail server
- » The SafePoint Anti-Spam Firewall is a hosted email gateway appliance incorporating a comprehensive Spam and Virus filtering solution that ensures all email arriving at your mail server and network is Spam and Virus free.
- » The SafePoint Anti-Spam Firewall system is ideal for ISP's, Web Hosting Providers, SME's, Corporate Systems Administrators and IT Departments who are looking for an "off the shelf" solution and wanting to minimize in-house development and maintenance as much as possible while reducing the load on mail servers and networks, as well as realizing savings on bandwidth, administrative and support costs.
- » The SafePoint Anti-Spam Firewall system is compatible with all mail servers and email clients. There is no hardware to purchase or maintain, no software to install and configure, and no per-domain, per-user, or per-mailbox fees or other license fees or charges to pay.

### How the SafePoint Firewall Works

- » Connection Control/Validation
- » RBL/Blacklist checks
- » Anti-Virus Scanning
- » Whitelisting/ Delivery
- » Spam Scanning and Filtering
